SUMMARY

Driven by my passion for mathematics and a knack for problem-solving, I excel in the analysis and design of algorithms. As a proficient full-stack developer, I have honed my skills in JavaScript, TypeScript, HTML, Tailwind CSS, React.js, Next.js, and Python. Beyond my technical abilities, I enjoy engaging in creative pursuits, such as photography, singing, and exploring new traveling destinations. I am eager to apply my diverse skill set and creative outlook in a software developer role.

SKILLS

ADA	Problem-solving	Javascript	Typescript	React	Next JS 13	Three Js	Web API

Tailwind CSS	HTML 5	Python	Django	UI Design	GIT

PROJECTS

3D-Product Web Application

📅 01/2023 - 05/2023

This project is an AI-powered 3D e-commerce website that is built using React, Three.js, and Tailwind CSS. I have used the fundamentals of 3D graphics, integrating Three.js with React and generating AI images using DALL-E.

Camble - A Video Chat Web Application

📅 08/2022 - 11/2022

Camble is an innovative and user-friendly web-based video chat application designed for real-time communication over the Internet. Leveraging cutting-edge WebRTC (Web Real-Time Communication) technology, this project showcases my expertise in web development, JavaScript, CSS, and HTML to create a dynamic and engaging user experience.

Car Showcase Web Application

📅 12/2021 - 04/2022

Car Showcase is a cutting-edge web-based application designed to revolutionize the car buying experience. Developed using React.js, Next.js 13, Tailwind CSS, and TypeScript, this project represents my expertise in modern web development and showcases my commitment to providing users with a seamless platform for exploring, comparing, and purchasing new vehicles.

EDUCATION

B.tech. - Computer Science & Engineering

MIT World Peace University

📅 2020 - 2024   📍 Kothrud

GPA
8.60 / 10.0

LANGUAGES

English - Fluent   Hindi & Marathi - Native

CERTIFICATION

Full stack web development and AI with Python (Django) - By Udemy (2022)

The Complete JavaScript Course - By Udemy (2022)

Data Structures + Algorithms - By Udemy (2021)
